Synopsis

From bestselling author Eve Rabi comes "A riveting suspense thriller that will keep you turning pages." Amzn reviewer*****She called me the miracle in her life, I called her my little treasure. Sounds corny, I know, but I really believed I was the luckiest man on earth. I had the loving and supportive wife, a nurturing mother to our two precious girls, a thriving business and the future looked rosy. I was a contented man, complacent even. But overnight my world tipped. My wife withdrew, ignored our children and made it clear she was no longer interested in playing the role of wife and mother. We had two children under five, they needed her. I needed her. When her dressing began to change and she disappeared for hours, I suspected I was not enough for her. Thinking she was having an affair, I placed my wife of five years under surveillance. If she was having an affair, I would be devastated. What my surveillance revealed shook my world, broke my heart, exposing a web of lies and deceit in the process. In the end, I wished she had been having an affair. it would have been easier to handle. If you enjoy mystery thrillers suspense psychological novels with twists and turns, then you will enjoy this explosive, drama filled book from Eve Rabi (that has an overall 5-star rating on Amzn U.K.). Customer Reviews

WOW. I just love your writing. I just read this book and I'm blown away. The drama, mystery and comedy are all so fab. Ms. Rabi you have done it again. I read both the Other Woman series before I read this book. I didn't think I wanted to read it but after reading the Other Woman series, I had to know why Ritchie was so put off by his ex Liefie and what she did. And now I know and all I can say is DAMN! After reading this book I'm so glad you got Ritchie and Rival together. They truly deserve to be happy since their first marriages were so disappointing. Love Bear and Arena and I'm glad to have known their characters in 5 books, weather they are the main character or a co-character. I hope I keep seeing them. As well as more from R&R (Ritchie and Rival). All four are so cute and

funny. As for Liefie, you can kill her off in MALICE and that will make way for Vlad (who seems like a good guy) to move on with Mungee (Norman's (who killed Bradley) widow). They can raise their kids together, because they too have been victims of selfish people. I can hardly wait for MALICE, I just know that one will also be a page turner. Again thanks for keeping us entertained and please keep the good stuff coming. I'll be waiting. You are truly one of the best story tellers ever. Thank you. :-)

Another awesome read by Eve Rabi. This book had me sucked in from the very first page and I screamed in frustration once I reached the final page. The ending left me up in the air, wondering what was going to happen next. Well done, Ms. Rabi, I am anxiously awaiting the next installment of this series.

4 1/2 stars All I have to say is, if you haven't read an Eve Rabi book, you need to stop what you're doing and download one immediately! Her stories are so very different and so very twisted. There isn't always a HEA, but you go on a hell of a ride every time. This book was awesome! It had the best freaking twist! Ritchie and Liefie are deeply in love and expecting their third child. Liefie has to return to the Ukraine because her brother has fallen ill. Once she leaves Australia, things quickly fall apart for her and her husband. They experience the worst possible loss, then their marriage swiftly unravels. Liefie becomes a stranger and Ritchie is suspicious she's having an affair. Liefie changes the way she dresses, her behavior is erratic and she becomes abusive to her own children. Ritchie knows something isn't right and quickly learns his life is and has been a farce for a very long time. Ritchie is forced to become a single parent, while running his own business all while investigating his wife's newfound friends. Ritchie is physically attacked, blackmailed and his family's lives are threatened. He has to do whatever's necessary to protect his family and he does just that. This was a crazy ride. The H/h go through so much pain and torment throughout and my God the end was so sad. I felt hopeless by the end. I cannot wait to see how things can possibly improve for the H/h after the ending.

This book was very intriguing. Just when I thought I had the plot figured out, the story went in an entirely different direction. The extent that Richie went to in order to protect his family was amazing. However, he just couldn't seem to get past the deceit and cheating. Sometimes not having the ability to forgive will make for a miserable existence. I enjoyed that we got to check in on Arena and Bear in this book. Bear has been one of my all time favorite book characters in Eve Rabi's books. Yes, I have read every single one of her books and get as excited as a kid in a candy store when a

new book is released. I didn't realize this book was going to end with a cliffhanger. Getting to the last page...it was like WHAT, WAIT...OH NO!!! Now I am anxiously awaiting the second book in this series and the suspense is agonizing. Thanks for that Eve!

Ritchie appears to have the ideal marriage with a loving and supportive wife he calls Liefie, two children that she nurtures, and a third on the way. Liefie wants to see her brother, in Ukraine, and while there Ritchie is lead to believe she had a miscarriage. Upon returning to Ritchie, with her brother in tow, things start to unravel and Liefie's whole personality changes. Ritchie chalks it up to depression due to the miscarriage. Soon he learns what is behind this and Liefie is not who he thought she was. Ritchie's heart is broken as a result of the lies and deceit. He is forced to be a single parent, run his own business, investigate his wife's new friends, is physically attacked, blackmailed and his family is threatened. Family is his priority and he will go to the ends of the earth to protect them. However, as much as he loves Liefie, he cannot get past the lies and deceit. This book is a romance with intriguing twists. It was neither my most favorite romance nor my most favorite suspense story. At the beginning, I thought it was just a romance and hard to get into. Like most things I get into, I could not quit so I continued to read the book with the thought of how anyone could develop a plan like that and hurt so many people. There is much pain throughout and the ending is sad while leaving you hanging to read the next book.
