The Unbridled Beast: An Erotic Fairy Tale

Synopsis

Warning: This fairy tale is not for children, nor, in fact, is it for anyone under the age of eighteen. It is dark, and explicitly sexual in nature. The beast demanded a companion and so she came. It was the only way to spare her father from the same fate. Now she is his prisoner on a dark and lonely estate, and her body rouses to his touch with a longing she has never known. Even if he would free her, her own desires hold her captive--in thrall to the beast that claims her.

Customer Reviews

There are quite a few erotic versions of the classic tale of beauty and the beast. However, what a lot of the authors fail to realize is that writing a truly satisfying erotic tale is a skill that requires one to weave a tale with a perfect balance between love scenes and sex scenes that are provocative and sensual without being necessarily raunchy or crude. Raunchy and crude have their places, but those stories often become repetitive and trite and quickly pass into a nameless sea of forgettable stories about the merging of throbbing, quivering and aching body parts. In the Unbridled Beast the author weaves a tale that is interesting and more than just a collection of sex scenes. The plot is a very familiar one but the author still manages to infuse a newness and excitement in his or her version. The story is a satisfying blend of sentimentality, emotions and provocativeness. The main

characters were familiar per se but their emotions and actions were none the less captivating. The characters were likable and I felt their emotions, their fear, their longing, their loneliness, their despair, their desire, their ecstasy and their love. The sex scenes are at times fierce and primal and at other times tender and sweet but they are always salacious, provocative and exciting. The Unbridled Beast was a thoroughly "satisfying" read (pun intended! LOL) that I highly recommend. I have already looked and there aren't any other books currently available under this author's "name" but I look forward to reading more from this author.

One of the better erotic retellings of Beauty and the Beast. It was well written with plenty of buildup and detail without wasting time. The only complaint I have is that I felt it ended rather abruptly. After they discovered their love for each other, I expected something more to happen but it just kind of ended. I did appreciate that they developed a relationship with each other instead of just falling into lust right off the bat. Her losing her virginity was pretty realistic in terms of pain and the physical ramifications. That being said, it was essentially bestiality since, from the way the author describes him, the beast is physically beastlike in ways. He was also pretty rough with her, but it wasn't unexpected. If you can get past those two things, then I think you will like the story. I honestly forgot he wasn't physically human. I also was confused about his predicament. The author really didn't explain the way her retelling worked and since it wasn't the same as the original fairytale, I found myself wanting explanations that wouldn't come. It didn't detract from enjoying the story, however. Overall, I liked the characters although their stubbornness could be frustrating. I still wanted them to achieve their happy ending. I felt it could have been written better in places, especially some of the erotic scenes. That being said, it was essentially what I wanted from an erotic retelling.

This was an excellently written erotic novella based on Beauty and the Beast. At first I was a little wary about buying such a short book but I am glad I spent the three dollars because it was well worth it. The author writes very well and despite the length I came to like both the main characters. They both seemed grounded and realistic and didn't have the annoying personality traits you often find in other romance/erotic novels (no feisty, foolish heroines making one bad decision after another in this novella). Granted there isn't much of a story line outside of the general concept of the Beauty and the Beast fairy tale but Novelette does include a few elements to make the story her own like the Beast's (Adam's) diary. The love scenes are written extremely well and are probably some of the best I've ever read. If erotica stories don't bother you and you enjoy the Beauty and the

Beast tale, then you should definitely buy this book.

I enjoyed reading the dark side of a familiar tale and exploring the naughty bits that Disney left out. I was swept along in the story and found myself caught up in the characters as they struggled with their beasts. The tension in the story felt genuine and Unbridled Beast was refreshingly well-crafted-- as someone who is used to cringing at poorly written erotica dialogue, I can say there were no trite passages to distract from the flow of the story or the satisfying crescendo of the erotic scenes. I can't wait to see what the author unleashes when she untames her next fairy tale.

This story turned out to be more than I ever thought it would be. This book gave a whole new meaning to the fairy tale I was used to. The Beast made me fall in love. I want a beast of my own. I can't imagine such impressive pleasure. Make me want to howl. I loved this take on Beauty and the Erotic Beast.

Very nice little read. I like my fairytales erotic now that I'm all grown up, and this definitely fit the bill. I'm glad I got this on a free day though as it's under 100 pages but it was a good short story.

Really like this version of Beauty & the beast. The characters are interesting and the storyline gets you invested in their HEA. The buildup for sex was nice and sex scenes were steamy. Very enjoyable!
