This is the second book in this series that I have read and I have found them very enjoyable and entertaining. I like how the author jumps back and forth between the two protagonists and what is happening to them. The backstory of the characters is told in an interesting way as a fairy tale from long ago. It explains to the reader a bit more about what is going on without directly describing it. I also liked that the fairy tale was told in two different ways from two sides, each side describing themselves as the 'good' side and the other as the 'evil' side. The books are easy to read and quick to get through yet still engrossing with the right amount of detail.

I liked how the story is progressing from the first book. The author keeps my attention and makes me want more. Going to start book three either tonight or tomorrow. I don't want to spoil anything so I will just say I really like the back story to the book.

This was a great and well written book. Make sure you turn up the AC because this book is hot!!!!
